

Vermont Windham County  
West Townshend Sept 4. 1830. -

Dear Sir,

One of my neighbors has just had  
the reading of your Proposals for the Liberator  
and Journal of the Times -

He says it is professedly the very thing that  
is wanted. If you steadfastly pursue your object  
you will in the end be crowned with the honors  
of the greatest victory ever won by mortal power.  
<sup>He would spare you</sup> that you need fear no overthrow in the contest;  
for the moral power of the nation is on your side;  
and if you fail, you lose nothing; as in that case  
it will be evidenced that <sup>but little</sup> ~~the whole nation~~ will have been  
~~left~~ left worth preserving.

You will please forward me a copy  
of your paper which will be paid for when  
received -

And believe me a friend to Liberty.
